DETAILED ACTION

Allowable Subject Matter

1. Applicant is advised that the Notice of Allowance mailed on October 30, 2008 is vacated. If the issue fee has already been paid, applicant may request a refund or request that the fee be credited to a deposit account. However, applicant may wait until the application is either found allowable or held abandoned. If allowed, upon receipt of a new Notice of Allowance, applicant may request that the previously submitted issue fee be applied. If abandoned, applicant may request refund or credit to a specified Deposit Account.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 34-38, 45-49, 56 and 57 are rejected under 35 U.S.C. 102(b) as being anticipated by Hull, et al. (5,806,870).

Hull et al. disclose an extension device 10 comprising an elongated rigid frame 14 having a horizontal longitudinal axis of rotation and extending between a front end connector 28 that mates a wheel vehicle section and a rear, load carrying wheel vehicle section, the device comprising an elongate rigid frame having a horizontal longitudinal axis of rotation and extending between a front end connector that matingly engages with the prime mover wheeled vehicle section and a back end connector 26 that matingly engages with the load-carrying

wheeled vehicle section and wherein one of the connectors 26 is a pivot connector that enables a rotatable connection about the horizontal longitudinal axis of rotation of the frame (see col. 2, lines 22-27) and the other of the connectors is a fixed connector that establishes a fixed connection relative to the horizontal longitudinal axis of rotation of the frame. The front and back end connectors have a sleeve wherein the sleeve is cylindrically shaped, as shown in figures 6. The pivot connector and the fixed connector comprise a cylindrical shaped sleeve 18. With respect to the articulated dumper, Hull teaches the term vehicle is not to be limited to the preferred embodiment shown in the drawings as a pick-up truck but the invention applies to any land vehicle, see col. 3, lines 1-7. The forward and the rear vehicle sections are longitudinally spaced apart by means of the friction plate 20.

Allowable Subject Matter

4. Claims 39-43 and 50-54 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed September 19, 2008 have been fully considered but they are not persuasive. The applicant argues Hull's chassis sections are not longitudinally spaced apart; the examiner contends the forward and the rear vehicle sections are longitudinally spaced apart by means of the friction plate 20, as shown in the figures. Further, the prior art clearly teaches the claimed structure.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
